

## Freedom of Information Request Reference N<sup>o</sup>: FOI 000500-18

I write in connection with your request for information received by Norfolk and Suffolk Constabularies on the 2 February 2018 in which you sought access to the following information:

*"I would be thankful if you could provide counts of burglary to dwelling (or burglary – residential) and counts of criminal damage to dwelling (criminal damage – residential) at the Lower Super Output Area (LSOA) or Output Area levels for areas in your jurisdiction data are available for.*

*Last 12 most recent months"*

### Response to your Request

The response provided below is correct as of 16 February 2018

Norfolk and Suffolk Constabularies have considered your request for information and our response is below.

A search has been completed of the Constabularies crime system for all residential burglary and criminal damage offences recorded during the 2017 calendar year.

The tables provided on the attached Excel Spreadsheet confirms the total number of Burglary – Dwelling offences recorded and the total number of criminal damage offences recorded, where the location was recorded as a 'dwelling'.

The information has been split by Lower Super Output Area and by Force.

***Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.***

Should you have any further queries concerning this request, please contact Clair Pack, FOI Decision Maker, quoting the reference number shown above.
