

Freedom of Information Request Reference N°: FOI 002384-18

I write in connection with your request for information received by Suffolk Constabulary on the 6 July 2018 in which you sought access to the following information:

“Have there been any thefts of tools from vehicles where there are no signs of forced or violent entry ie keyless entry within postcode IP11 0XN and the surrounding area (approx 10 mile radius) between May 2018 and July 2018, if so please can you advise how many?”

Response to your Request

The response provided below is correct as of 18 July 2018

Suffolk Constabulary has considered your request for information and the response is below.

A search has been completed of the Constabulary’s crime system for all theft from motor vehicle offences that have occurred during May – July 2018. The information was filtered to only include those offences that occurred within a 10 mile radius of IP11 0XN.

A freetext search was undertaken to include only those offences where there appeared to be no signs of forced entry or where the method of entry is recorded as unknown. Please note that such a search by its very nature relies wholly on the text within the crime. Therefore, the information provided does not necessarily relate specifically to keyless entry.

The Constabulary located fifteen offences within this area that did not appear to have any signs of forced entry or where the entry was recorded as unknown. None of these offences contained the keyword ‘keyless’.
