

Freedom of Information Request Reference N°: FOI 001583-19

I write in connection with your request for information received by Suffolk Constabulary on the 26 April 2019 in which you sought access to the following information:

“The number of police cases related to drug offences where a social media platform is mentioned in the report for each year from 2015 to present.

Please break this down by year, the type of offence, the social media platform or website (i.e Facebook, Instagram, Snapchat, TikTok...etc), whether a conviction was reached, and any additional details about the case you can include.”

Response to your Request

The response provided below is correct as of 8 May 2019

Suffolk Constabulary has considered your request for information and the response is below.

A search has been completed of the Constabulary’s crime system for all drug offences recorded from 2015 to date. Each crime has then been reviewed to extract only those that contain one or more of the following keywords; Facebook, Instagram, Snapchat, TikTok and Social.

The Constabulary located one relevant offence during 2018, which contained the word ‘social’ and related to the supplying or offering to supply a controlled drug – Class B. The offence resulted in outcome type 15 – Named suspect identified: Evidential difficulties.

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Should you have any further queries concerning this request, please contact Clair Pack, FOI Decision Maker, quoting the reference number shown above.
