

**Freedom of Information Request Reference N°: FOI 002644-18**

I write in connection with your request for information received by Suffolk Constabulary on the 25 July 2018 in which you sought access to the following information:

*“All crimes recorded where the identified victim is aged over 65 for 2013, 2014, 2015, 2016, 2017 calendar years, with an annual breakdown.*

*The number of such crimes (broken down by year) that resulted in a charge over the same years, with a similar breakdown.*

*Could you please breakdown the offences into specific crimes, ensuring that you use the Home Office's crime classifications (name and code) rather than any other classifications.”*

**Response to your Request**

The response provided below is correct as of 1 August 2018

Suffolk Constabulary has considered your request for information and the response is below.

A search has been conducted via our legacy crime system CIS and our current crime management system Athena (from 19.10.15), for all crimes where the victim is aged over 65 for the calendar years, 2013, 2014, 2015, 2016 and 2017.

The attached spreadsheet provides details of those crimes, broken down by year, Home Office offence, Home Office classification code and the outcome of the crime.

Please note data has only been included where the victims date of birth has been input, as this is not a mandatory field, and where their age was 65 or over at the time of the offence.

***Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.***
