

## **Freedom of Information Request Reference N°: FOI 00002791-19**

I write in connection with your request for information received by Suffolk and Norfolk Constabularies on 4 August 2019 which you sought access to the following information:

*“Have there been any drone accidents or near accidents in the Suffolk and Norfolk area since the start of 2018, and if so how many?”*

### **Response to your Request**

The response provided below is correct as of 15 August 2019

Suffolk and Norfolk Constabularies have considered your request for information and the response is below.

A search has been completed of the Constabularies call system STORM, for all incidents recorded that contain the word 'Drone'. This information was then further filtered to only include those incidents that include the words 'Accident' or 'Crash'.

The total number of drone accidents or near accidents recorded is provided below, noting that these figures are based on a freetext search, so there may be other relevant incidents recorded that have not met the search parameters used. Additionally, the results do not confirm the nature of the incident, the majority of which relate to drones crash landing.

Norfolk Constabulary – 5

Suffolk Constabulary – 4

Should you have any further queries concerning this request, please contact Clair Pack, FOI Decision Maker, quoting the reference number shown above.
