Freedom of Information Request Reference N^o: FOI 003415/19

I write in connection with your request for information received by the Norfolk and Suffolk Constabularies on the 19th September 2019 in which you sought access to the following information:

For the last three calendar years 2016, 2017, 2018.

The number and % of employees and special constables that have been registered or left the force due to severely sight impaired (blind) or sight impaired (partially sighted) through trauma or any other cause.

Response to your Request

The response provided below is correct as of 4th October 2019.

Norfolk and Suffolk Constabularies have considered your request and our response is below:-

The Health and Safety Manager has advised that if an officer or member of police staff had reported an incident which led to them going blind or partially sighted, the Constabularies would have a record of this, if it arose as a result of a work activity accident or incident. The Constabularies would not necessarily know if the partial sight then enabled them to be registered partially sighted.

The Constabularies are not aware of any such cases. Additionally, with regard to ill health leavers, we have no records of any that were due to the individual being blind or partially sighted due to trauma.

This response will be published on the Constabularies web-site under the Freedom of Information pages:-
