

Freedom of Information Request Reference N^o: FOI 000006-19

I write in connection with your request for information received by Suffolk Constabulary on the 2 January 2019 in which you sought access to the following information:

“In the last five calendar years, how many homicides have been recorded by your force?”

Can the figure be broken down by each calendar year, the area where the homicide was recorded (town/city) and the type of homicide (stabbing, shooting, assault, arson etc).”

Response to your Request

The response provided below is correct as of 8 January 2019

Suffolk Constabulary has considered your request for information and the response is below.

A search has been completed of the Constabulary’s crime data for all homicide offences recorded for the 2013 – 2018 calendar years.

The information provided in the attached spreadsheet confirms all recorded homicides during this time frame, provided by year, homicide type and location town. This data does not include offences that were recorded as homicides, but investigation later concluded that no offence had taken place.

Police forces in the United Kingdom are routinely required to provide crime statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the crime data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Should you have any further queries concerning this request, please contact Clair Pack, FOI Decision Maker, quoting the reference number shown above.
