Victims of the below crimes reported their vehicles had been targeted overnight.

As a result, Officers have been briefed about the risk to panel type vans in particular and have been conducting targeted patrols in vulnerable areas such as ind.estates.

Responding to issues in your community

Vehicles in Leiston were targeted in October with an attempt to break into a panel van overnight between the 18th & 19th and a number plate stolen from a car overnight between the 27th & 28th. Number plates are taken, with criminals attaching them to vehicles used in crime to try & conceal the vehicles' identity.

For tips on vehicle security, see the 'First Principle' page of our website at <https://www.suffolk.police.uk/sites/suffolk/files/vehiclesecurity>

Making the community safer

Members of the Halesworth Safer Neighbourhood Team were at the Riverside Centre, Stratford St. Andrew last week with partner agencies, taking part in this years' Crucial Crew event. It's an annual event which delivers hard hitting, street wise information to 10 & 11 year olds who attend from local schools. It was particularly timely this year, as the policing message for 2018 was about ASB, just prior to Halloween

Future events

Members of the Halesworth Area Safer Neighbourhood Team will be attending our local Remembrance Day events this week-end. We'll be at the following locations throughout the day;

Halesworth
Southwold
Reydon
Leiston
Aldeburgh
Saxmundham
Framlingham
and
Eye

Preventing, reducing and solving crime and ASB

This years' Halloween appears to have passed with not a single report of ASB or damage reported for the Leiston / Saxmundham areas. The Safer Neighbourhood Team were out and about on the night engaging with Trick & Treaters and it was good to see how many of you had taken advantage of the free posters downloaded from our website encouraging or discouraging callers.
