## Leiston

### You said...

Concerns were raised over vehicles which were believed abandoned.

Report of a vehicle parked in a residential road causing an obstruction.

Report of a lorry parked on double yellow lines.

### We did...

Owner spoken to by Community Support Officers and vehicles reported as abandoned to the council for removal.

Location visited and no obstructions present.

Lorry had broken down and was removed in officer's presence.

### Responding to issues in your community

Pc Simon Green is the latest officer to join our Safer Neighbourhood Team as the new Engagement Officer. His role will support our work on the team safeguarding the neighbourhood. He will engage with the public through the use of traditional and social media to enhance communication with the public and represent all the good work we do as an organisation to keep Suffolk safe.

Suffolk Coastal District Council in partnership with other agencies held a "Pop Up, Pop In" Leiston Community Matters work shop over the 4 weeks of April. As part of our working partnership with the council, we attend on the 4th week and are available for the public to meet the SNT and talk to the officers.

### Making the community safer

Response officers from Halesworth arrested a male for threatening behavior in public with an axe. In the follow up to this investigation, as your SNT, we assisted with the investigation, and safeguarded all from any further problems. We seized the male's shotguns temporarily whilst the investigation was completed.

A male from Saxmundham who was released from prison this year, was again arrested following a complaint of damage occurring at his mother home address. We have attended and will continue to support the mother who is vulnerable, to protect her from further harm.

Following a report of arson in a rubbish bin by the Memorial Field Skate Park, Saxmundham enquiries were made with the scout master and local youth club to ascertain any leads for follow up.

### Preventing, reducing and solving crime and ASB

We have made various visits this month to vulnerable residents to reassure them and prevent them being targeted. Some examples include :

A vulnerable female, with learning difficulties who receives her care in the community has been harassed by young male and female youths while she has been traveling on her bicycle. The male's address has been identified. Further work is being done to prevent any further problems.

At the request of our Independent Domestic Violence Advocate we visited a female victim and her children, who were involved in an ongoing harassment by her ex-partner, to offer support and local contact. Further work is being done to support them.
