

SNT Newsletter

Newmarket

You said...

1. Youths causing problems in various locations around town.
2. Street drinkers in town centre

We did...

1. Multi agency approach to identify individuals and utilise ASB legislation .
2. Working with local authority to engage and issue warnings

Responding to issues in your community

Over 40 parking tickets and words of advice issued to vehicles for illegal parking in the town. Despite having no dedicated enforcement team for parking, we tackle issues during our normal patrol. We are limited on resourcing but will issue tickets where and when we can.

Making the community safer

In response to an increase in disused needles found in NEWMARKET. It has been identified that SUPERDRUG are the only pharmacy to "needle exchange". This will be communicated to drug support teams to spread the word to their service users.

Preventing, reducing and solving crime and ASB

Work being undertaken around street drinking and urinating in public. All the offenders do not have ENGLISH as their first language so literature will be produced in order to communicate the issue to them. Once produced regular patrols can be made and the PSPO area legislation pointed out to them.

This SNT covers the following parishes

Exning, Newmarket.
